

THE GLEICHEN CALL

VOLUME XXXVI NO. 12

GLEICHEN, ALBERTA, WEDNESDAY JUNE 9, 1943

SUBSCRIPTION \$2.00 PER YEAR

Major G. H. Gooderham King's Honor List Appointed M.B.E.

Gleichen people were surprised and delighted when they learned that one of her citizens, Major G. H. Gooderham had figured in the King's Birthday Honors list. The first inkling of the award was had when his name was found in the long list of names issued and since then congratulations have showered on Mr. Gooderham.

The award appointed Mr. Gooderham a Member of the Most Excellent Order of the British Empire (M.B.E.). This is a civil award and believed to be for long service in the civil service as Indian agent of the Blackfoot Reserve.

Major Gooderham first came to Gleichen with his parents in 1907. Leaving here a short time later, he went to Toronto where he attended the University of Toronto for four years and McMaster University for one year. He enlisted in World War

I in the spring 1916 and in December of that year was commissioned a lieutenant of Canadian Artillery. Arriving in England he joined the Royal Artillery serving with a London, Reg. Artillery Brigade in France and came home with the rank of a captain.

He returned to Gleichen and became Indian Agent in January 1920. So well is he thought of by the Blackfeet they made a full chief in 1932 giving him the name of Big Plume.

Major Gooderham was second in command of the 22nd Battery when it was formed in 1922. He was on the reserve officers for a number of years and again took active interest in the unit when the 2nd 22nd Battery was formed in August 1940.

Major Gooderham was second in command of the 22nd Battery when it was formed in 1922. He was on the reserve officers for a number of years and again took active interest in the unit when the 2nd 22nd Battery was formed in August 1940.

ITEMS OF NEWS OF GLEICHEN AND VICINITY

There was frost last Thursday night and again on Monday night.

Born, on June 7, to Mr. and Mrs. C. Woods a daughter.

Bryan W. Burne has enlisted with the Air Force and will be occupied as an engine mechanic. He will report for duty on July 5.

From now on Saturday night dances will be held in the Community Hall from 9 to 11:45 o'clock. The admission price is very moderate. The first dance will take place next Saturday night.

Mr. Robt Stuckard of Calgary spent several days the past week visiting relatives in Gleichen and Arrowwood. She returned home on Sunday night.

St. A. W. Riddell arrived in town last week to visit his parents Mr. and Mrs. N. A. Riddell. Sgt. Riddell has been overseas for the past couple of years and recently returned to Canada and was located at Ottawa, prior to his visit home.

"Lo the poor Indian!" Who ever coined that expression was on the wrong track as far as the Blackfeet Indians are concerned. They do not worry about tomorrow and they are not afraid of imagination can they be capitalists or have they any desire to become a capitalist. According to a story circulating around town the Indians at the mine south of Cluny have discovered that with the increased bonus they are now getting for mining coal they earn in four days as much money as they formerly earned in six, so are thinking of working only four days a week. Oh hum!

CALGARY EXHIBITION WILL BE CANADA'S GREATEST SHOW

Plans are rapidly nearing completion for the 58th celebration of the annual Calgary Exhibition and Stampede, July 5 to 10. All features of this great event will again be presented, along with many added new attractions.

The show this year has been dedicated to "Quality Food Production for Victory and Freedom" and it will mirror the Canadian War Effort, particularly in the field of live stock and agricultural products. The livestock exhibit is expected to be one of the finest in many years with a very large entry anticipated. The swine show, in keeping with the theme, will probably be the largest ever held in Canada. On display in the spacious Oat Pavilion will be an outstanding exhibit of "keystones" of breed improvement.

The biggest Stampede in the world with 500 cowboys competing in the hair-raising events will again feature the afternoon performances. Horse races, with seven races daily will intersperse the program on the last four days, Wednesday to Saturday. Monday and Tuesday afternoons will be filled with the most thrilling collection of western sports ever presented. Along with the Stampede on those afternoons the track events will consist of Round Stealing, Barrel Pony Express Races, Stake Turning races and Cart Races. Calgary has long been famous for its exciting Chuck Wagon Races and with some in their picturesque surroundings at the grounds. On Tuesday, Wednesday and Thursday mornings street displays will be presented in down town Calgary. The Old Time will again be trained all their old friends in the pleasant atmosphere of their old log cabin.

The evening attraction on the grandstands is entitled "Ah-

Indians Will Have Sports Next Week

The Indians are going to stage their annual sports day next Wednesday afternoon on the flats at North Camp, four miles south west of Gleichen.

They plan to have all kinds of sports. Horse races, athletic events, children's races for all ages, a tug of war between the Red and Whites, and a baseball tournament. To wind up the day they will stage a grand ball at the Crowfoot Hall and will give a display of the prairie chicken dance.

Last year the Indians put on their first sports day and made a real success of it. There were no waits between events. Once started they kept the ball rolling and kept the whites interested all afternoon. They proved that they could put a sports day over efficiently and made real good starts and judges in all the events run off.

The Indians cordially invite the whites to come again this year and participate in the sports. Dick W. Elk is the president of the committee and H. L. Horn is secretary-treasurer.

lies "Victorians", and will combine clever comedy and mirthful music in the most attractive presentation, ever staged on the A circuit. Each evening the grand stand performance will be opened with the thrilling Chuck Wagon Races. Already over 50 entries have been received for this event, the greatest entry for many years, and shells and spits will be the result for at least five heats each night. Saturday evening the Indians will parade on the platform in their colorful costumes and Stampede Championships will be presented to the top cowboys of the week. Fireworks will be presented on Monday

TOWN OF GLEICHEN Notice re Garbage

All garbage and tin cans must be deposited in containers and placed in an easily accessible place where it can be hauled away.

The town will have a truck pick up all garbage twice a month.

The first pickup will be June the seventeenth.

Vegetable matter must be wrapped in paper. Ashes must be placed in piles.

SECRETARY-TREASURER.

and Saturday evenings, and will undoubtedly be the greatest display presented in Canada this year. The All Canadian Midway, "Frisco-Land", with many new rides and shows will be in Calgary again for the week of July 6th to 10th, and will do its part in providing entertainment and relaxation for the public generally and the members of the Armed Services stationed in the west.

Such recreations may be made by mail accompanied by self-addressed stamped envelope with cheque or money order.

Notes From U.F.W.A. Items From The Battery

(By special correspondent)

Mrs. Bert Day was hostess to the ladies of the U.F.W.A. when they held their regular meeting last Thursday afternoon. The meeting was opened by singing My Wild Irish Rose and when it was a Tully. The roll call being a War Time List was answered by 21 members and four visitors.

Business arising out of the minutes were a report on our trip to Arrowwood by the president. All agreed that a lovely time was had by everybody who attended. The demonstration which is to take place shortly will be held at the home of Mrs. Nunn instead of at Mrs. Lilja's.

Mr. J. Wilson read May bulletin on Young People's Work. It was decided to hold our annual dance on Friday October 16th and Mrs. Sammons was appointed to arrange for music and a speaker. Mrs. Quennell will look after paper and colors to decorate to hall. The delicious lunch was adjourned to meet again on June 17 at the home of Mrs. Leroy Koeford.

Some of the Indians are being trained their horses for the chuck wagon races in Calgary next month.

Dr. E. W. Newby
Director, Agricultural Department
North-West Line Elevator Association

Seeds, Weeds and Services

The Line Elevators Association has completed germination tests on 11,000 samples of farmers' seeds, an increase over last year of nearly 2,000. All samples have been tested and many have had their tests. This means a total of nearly 100,000 tests, and if we add the figures, 2,500,000 seeds! Not one complaint has so far reached the office.

Once again, we take the liberty reminding farmers that if they cannot identify all weeds on their farms, they may be making serious mistakes for the future. Some of the perennial weeds can be destroyed cheaply; but, later on, eradication may cost as much as the land is worth. It is only necessary to collect good specimens including flowers and roots and take them to the nearest line elevator agent. He will forward them to us, and we will identify the weeds and indicate whether or not they are likely to be serious pests. Or, we will be sent to any Dominion Experimental Farm, Provincial Department of Agriculture or University. The importance of this matter cannot be over-stressed.

The Line Elevators' seed bulletin, the Illustrated Guide to Farm Weeds, is available through line elevator agents or by writing to the Agricultural Department, The North-West Line Elevators Association, Winnipeg.

It is now nearly four years since the Line Elevator Companies organized this Department to serve prairie farmers. Each succeeding year has brought increased demand for services and publications: this is an ample reward.

There have been good parades at all points. For example there were 50 parades at Humber last week, Wednesday and Sunday, there were 50 on parade. This did not include officers, N.C.O. and instructors from Gleichen.

The troop at Hawsan took part in the Stampede parade today. This unit was a gun.

Battery parade is set for Sunday 15, when all sub units will meet at Cluny in the morning and will be drilled on the Indian Reserve in the afternoon. The parade is called for 10:30 a.m., which means earlier parades at the various unit headquarters. This should be interesting and give the new members of the units some idea of the exercises they will go through at Sarnia Camp.

More men have indicated that they will attend camp this year than ever gone since the battery was organized. This is good news.

The enlistments in the 22nd Battery since March are greater in percentage than any other reserve unit in Alberta.

Soldiers proceeding to an unknown destination overseas may have their mail addressed to Post Restante, Postal Corps Headquarters, Canadian Army Overseas, to be forwarded to them later. The mail should bear the soldier's number, rank, name and unit. When the soldier reaches his destination, he should inform Post Restante and his mail will be forwarded. Mail must be applied for within 60 days, or it will be returned to the senders in Canada.

Don't be misled by the title, "Veterans Guard of Canada." If it conjures up visions in your mind of men mounting wary, monstrous guard over our coasts, prisoners-of-war and vital defence installations. If you envision thousands of men keeping ceaseless watch, you'll be right only partly so. For the job the Veterans Guard of Canada is doing today calls for resourcefulness and ingenuity for type of physical endurance and training that only seasoned troops can provide.

First organized on May 24, 1940, the Veterans Guard was immediately pressed into service.

Dispatched to camps set up to handle the inflow of enemy prisoners from Great Britain, they found in many cases only elementary accommodations ready to receive them. Distribution of furnishings and comforts was not yet perfected, Many of the Veterans, who only a few days before had left their comfortable hearths to re-enter the service found themselves fighting in their first battles, cold and discomfort. Some of the men, coming on early morning duty battled frozen pipes and balky cookstoves. They began to think that Robert Service's immortal Sam McGee had been a busy. Through it all the Vets carried out their duties unflinchingly and often with a smile. "We're old soldiers, we can take it," (Continued on another page)

FAT IS AMMUNITION!

Fat and bone conservation begins at home and ends in the firing line

- DO YOU KNOW -

One pound of fat supplies enough glycerine to fire 150 bullets from a Bren gun.

Bones produce fat and aircraft glue.

If we saved fat at the rate of one ounce per person per week this would mean 36,000,000 pounds per year, enough to produce 3,600,000 pounds of glycerine for explosives.

OUR FIGHTERS DEPEND ON YOU

"Every householder who delivers to a retail butcher, collector, or Salvage Committee, any rendered or unrendered fats or bones shall be entitled to receive from the person to whom they are delivered 4 cents per pound net weight for rendered fats, and 1 cent per pound for unrendered fats."

Wartime Prices and Trade Board

"Rendered fat" means fat melted down and strained to remove solid matter. It includes drippings and strained pan grease resulting from the cooking of meat.

"Unrendered fat" means raw or partially cooked fat free from lean meat and bone, but not fully rendered.

"Bones" means raw or cooked bones of cattle, sheep and hogs.

EVERY OUNCE COUNTS!

SAVE AND STRAIN EVERY DROP TO SPEED VICTORY. SELL IT TO YOUR BUTCHER OR GIVE IT TO YOUR SALVAGE COMMITTEE.

NOTICE TO BUTCHERS, HOTELS, ETC.

You have been mailed a copy of Order A-642. This Order affects operators of hotels, restaurants and other establishments where meals are served. It is of immediate importance to butchers and slaughterers. If your copy has been lost, you can obtain another from the nearest office of The Wartime Prices and Trade Board.

Protein For Chicks

Can Be Home-Produced If Commercial
Feeds Not Available

Where prepared commercial feeds or concentrates are not available in sufficient quantities as chick starters, home mixed feeds should be used, state poultry officials of Dominion Department of Agriculture. There is grains and chicks can be successfully started on ground grains, supplemented by home produced protein feeds.

Hard boiled infested eggs mixed with bread crumbs or ground grains have given a start to many fine brood of chicks. Sour milk curd mixed in the same way makes an excellent feed and even where the supply of milk is too limited to permit making curd, the milk may be used to moisten the grains, and a supply kept at hand for chicks to drink. Animal or fish meal may be added and the soup and solids may be mixed with ground grains to carry the chicks over the starter period, after which they can get along on grains and good green range.

When it is necessary to follow these methods, care should be taken to feed only what the chicks can eat in a short time; any feed left after half an hour's feeding should be removed. With this method of feeding, chicks should be fed four to six times daily. Chicks should be allowed outside where they can get all the green feed and sunshine possible. Early in the season, vitamin lip oil should be included in the ration.

A 1,000-volt X-ray machine has had a change of duty because of the war. It is used to detect flaws in gun-turret coatings.

FLIER WAS LUCKY

Air Force Headquarters Releases
Thrilling Story Of Accident
In Alaska

Air Force headquarters released details of the flying accident in Alaska in which Wing Commander Robert Morrow, D.F.C., of Toronto, Vancouver and Ottawa, was injured some weeks ago.

Morrow, a fighter pilot who heads an R.C.A.F. unit in Alaska, took off on a routine patrol flight in his Kittyhawk. The aircraft failed to gain sufficient altitude and struck the top of a small hill, the announcement said. Part of the landing gear was driven through the right wing, and the propeller was bent by the impact.

Despite the damage to his machine, Morrow managed to keep on climbing but the damaged propeller was causing excessive vibration. Circling back over the airfield, he realized that an attempted crash landing would endanger other aircraft parked along the landing strip.

He headed his aircraft out to sea, intending to bail out over the sea shore area. Bad luck dogged him, however, and as he bailed out in the damaged plane he struck the tail, receiving spinal injuries which paralyzed his legs and knocked him unconscious.

His parachute, he believes, was flung open by the impact against the tail of his aircraft. When he regained consciousness he was floating seaward at about 1,500 feet. Before he could land, Morrow was unable to inflate his "Mae West," and remove his flying boots.

On striking the water, his chute billowed out and dragged him some distance before he was able to collapse it and free himself from the tail of his aircraft. His dignity inflated, Morrow had great difficulty in climbing into it because of his injuries.

He was quickly spotted by a Catalina patrol aircraft, but heavy seas made it impossible for the big ship to land, so Morrow climbed out of his dinghy and struck out for shore. American soldiers waded out and dragged him in. They also salvaged his damaged machine, and a stretcher with which to carry him to an American army doctor at a nearby unit. The doctor gave him emergency treatment.

Shortly afterward a cast was applied, and Morrow was flown to Vancouver. His Alaska-built cast was removed there and his injuries were diagnosed as vertebral fractures. In a few days, heavily taped, Morrow was able to walk, and reported for "limited ground duties."

Lost During Last War

Man Recovers Return Of Mirror Left
On Flinders Battlement

City councillor Ralph V. Barker of Ontario, Col., received back a mirror that was lost when he was wounded on a Flinders battlement in World War I. Commanders who had him had to cut away his pack and the mirror which was inside was abandoned. It was later found by Marjorie Carter, also a machine gunner, while Company C, 348th Battalion. He carried it with him until he got a job recently in Wilmington, shipyard where he learned that his erstwhile buddy was now a city councillor and returned him the mirror.

THE GLEICHEN CALL, GLEICHEN, ALBERTA

Days Of Peace

Post-War Collaboration In World
Food Organization

By H. O. Thompson, B.U.P.
(Correspondent)

Continuation of the Soviet Union's war-time collaboration into the days of peace and complete success for the United States' plan to establish a permanent world food organization appeared assured by developments at the United Nations food conference.

The big question mark of the post-war world—the part to be played by Russia—appeared to have been answered at least in part by the Soviet Union's declaration in favor of an interim commission which would prepare a way for a permanent body to supervise a better distribution of food after the war.

The conference did not call for official commitments by 44 governments, represented at Hot Springs, Va., but the Soviet statement was accepted as a reflection of the Kremlin attitude. It was interpreted as an open of closer international cooperation among the United Nations in the post-war world.

Georgi F. Saksis, of the Soviet delegation, made the declaration which was regarded as of sufficient importance to warrant issuance of the conference's first communique.

The communique, after announcing the first meeting of section IV concerned with "recommendations for continuing and carrying forward the work of the conference" reported consideration of the American plan for a permanent world food organization. It continued:

"Georgi F. Saksis, delegates of the Soviet Union, made the following statement:

"The delegation of Union of the Soviet Socialist Republics, considering the problem of the world food conference as of great importance, supports the suggestion of the United States' plan for a permanent world food organization. It is possible to accept this suggestion as a basis for a joint discussion in the conference."

The delegation of Union of the Soviet Socialist Republics, considering the problem of the world food conference as of great importance, supports the suggestion of the United States' plan for a permanent world food organization. It is possible to accept this suggestion as a basis for a joint discussion in the conference."

Like Father

Daughter of Lieut.-Gen. Kenneth A. N. Anderson, commander of the British First Army in Tunisia, is shown above inspecting Auxiliary Territorial Service girls who operate precision instruments on an anti-aircraft gun position in England. Mrs. Kaplowitz's husband is a major in the British army.

In Bolivia

South American Indians Know Nothing About Present War

The Rev. Gerard Gronin of West-brook, Me., a Maryknoll missionary, plunged deep into South American wilderness to learn that the terms "global war" is, at best, a mild overstatement.

Journeying by canoe down the Acre (Aquiri) River in the remote rubber country that divides Bolivia and Brazil, Father Gronin was startled to learn that thousands of his Indian parishioners, whom he was meeting for the first time, did not know the world is at war.

Still more incredible was the fact that many had never heard of the United States and few of Father Gronin's parishioners, though born to the Catholic faith, had ever seen a priest until he came among them.

The people who through the square at noon, leaning against the concrete railings or sitting on the base of Nelson's column, to listen to the concert include airman, sailors and soldiers on leave, women from the services and civilians with some time to spare while they are out of their offices for lunch.

The most noticeable thing about them is that they listen with attentive faces and generally prefer soft music to the sprightly pieces. The bandmaster has a perfect way of gauging his audience's reaction by the number of people who drift away after each piece. The audiences rarely include more than a few officers.

LOCAL ARMOURIES

Many Canadians misunderstand and underestimate the role the Veterans Guard is playing in this war. When we think of them we think of jobs for old men. This is a mistake. These veterans are not old. Their spirit towards their duty as citizens and soldiers could well be the envy of the younger generation in this war. See them on the march, and you will be struck by their steady easy, tireless pace. Watch them

handle their weapons, and you will see why the Canadian Army was truly "the terror of the enemy" in the last war.

On the coasts and overseas the Veterans are occupying front line positions. They take almost exactly the same curriculum of training as their younger brothers-in-arms receiving instruction in the use of all infantry weapons and following a regular schedule of physical training. They are schooled in defence tactics and serve in the defence system of the Canadian Army in the United

Kingdom in the eternal vigilance exercised against potential German raids both air and land.

Not spectacular but most effective, is the protection of vital vulnerable points in Canada, the Veterans Guard is constantly on the alert and the prowling saboteur has found them an unbeatable enemy. Men who learned vigilance at sentry-posts in the trenches of 1914-18, where laxness meant death for the slacker as well as for his comrades, haven't forgotten "how."

They guard prisoners of war where

Town & District

Line-Corp. Roy McLeay of Shilo, Man. is at present visiting his parents Mr. and Mrs. A. N. McLeay. He will leave for eastern Canada shortly.

Wally Smith who has been living in the northern part of the province for sometime has joined the R.C.A.F. and is stationed in Calgary. He was in town over the weekend visiting his old school chum Donald Farquharson. Jack Christensen spent the weekend in town. For sometime past he has been located near Chestermere Lake working with the government road gang repaving the hard surface part of the highway running from Calgary to Medicine Hat.

Word has been received that C. Woods has arrived overseas. W. O. Ellis is resident at Eventide. Home for the past six years died Saturday morning at the age of 72 years. He was born in Glamorgan, Ont. and came to Gleichen from Medicine Hat. Funeral services were held Monday afternoon at 2 o'clock with Major Parkinson of the Salvation Army officiating after which interment was made in Eventide cemetery.

New potatoes are ordinarily an early summer table luxury. This year to relieve the current shortage of old potatoes, the price of new potatoes must not exceed the lawful ceiling price for Canada No. 1 grade.

Military knowledge must blend with astute police work. They must think faster than the cleverest prisoner. They must forestall trickery and cleverly concealed plans for escape. Here again, the "old soldier" has the edge on his younger contemporaries, for some of these men of the Veterans' Guard were themselves prisoners during the last war, and the families with escape techniques. Preparations for escape are usually caught so quickly that they are never even classed attempts. Only a very meagre death of attempts ever succeed in even passing the wire. Any one prisoner of war has succeeded in getting clear away.

old potatoes, under order of the Wartime Prices and Trade Board effective June 7. Growers and consumers will be protected through subsidy paid up to August 31, by the Commodity Stabilization Corporation under direction of the Wartime Prices and Trade Board.

THE HOME FRONT

Because of wartime restrictions and shortage of trained inspectors, it is essential that field inspections of standing crops of cereals or forage be made economically as possible. It will, therefore, be necessary that growers wishing such inspection make their applications in good time. It has been decided that applications for forage crop inspections must be made prior to July 1st and those for cereal inspections before July 10th. Application forms can be secured from and must be returned promptly to, Production Service, Plant Products Division, Dominion Department of Agriculture, Immigration Building, Calgary. Growers who neglect making application prior to the specified dates may not receive service this season. It is, therefore, to the grower's interest that his application for this service should be filed promptly.

Housewives must buy by trying pens and tea kettles, but when a Toronto hardware merchant was discovered to be selling them above the maximum price he was fined \$200. Batsman hardly flood the market, but when a Montreal merchant sold them above the maximum price he was fined \$100. These are instances of fines paid when the price ceiling is exceeded. Out of 69 instances of price infractions during the week May 22 an May 28, 56 were found guilty. There were, in all, 102 price infractions during the week. Out of 98 instances of price infractions during the week May 22 an May 28, 56 were found guilty. There were, in all, 102 price infractions during the week. Out of 98 instances of price infractions during the week May 22 an May 28, 56 were found guilty. There were, in all, 102 price infractions during the week.

powder for Britain. The war is the cause of a paper shortage in Britain, and the most urgent part of that shortage is the lack of newsprint to mix with waste paper in making reclaimed stock. At the request of the British Government, a pure kraft control is used for the 74th, and for all master shipping containers made in Britain. This pure kraft, because of the long fibres, is the equivalent of virgin pulp. All cartons and shipping containers of Canadian dried egg powder bear special salvage instructions identifying the material as 100 per cent kraft. Not only does every shipment of Canadian dried eggs provide Britain with a vital food, but the containers eliminate the necessity of using valuable cargo space for an equivalent weight of wood pulp.

Much thought and scientific research went into the evolution of the two packages now used for the export of the dried egg powder. Britain has two major wartime uses for dried eggs—for use in the homes and public eating places, and for the bakery trade. As the common unit in Britain for distributing eggs to householders was one dozen, it was decided after consultation with the British Food Ministry that a five-ounce package, the equivalent of one dozen eggs, was the most suitable unit for household rationing. This sells to British housewives at one shilling and ninepence (35cents) and only Grade A powder, Canada's top product goes into it.

A larger container was obviously required for distribution to the restaurant and bakery trades. A unit to serve the purpose of the standard 30-dozen-case of shell eggs appeared to be desirable and the Canadian suggestion that it should be one stone, the familiar British weight, or 14 lb. was accepted by Britain. This is equivalent to about 45 dozen eggs. All shipments are analysed at a central laboratory of the Science Service, Dominion Department of Agriculture, before leaving the plant and are graded according to the standards devised by the Canadian authorities.

YOU MUST MAKE A
1942 INCOME TAX RETURN
NOT LATER THAN JUNE 30TH

... IF SINGLE and your net income exceeded \$660.00
... IF MARRIED and your net income exceeded \$1200.00

For incomes not over \$3000 get two (2) copies of simplified Form T. 1 Special.
For incomes over \$3000 get three (3) copies of Form T. 1 General.

Income Tax dollars are not ordinary dollars... they are Victory dollars... necessary dollars to help win the war. Income Tax is fair to all. All are taxed in proportion to their ability to pay.

Under the new system introduced this year, Income Tax is now on a pay-as-you-earn basis. The reduction of the 1942 Tax made this possible.

In most cases the larger part of the reduced tax will have been paid by the 1942 tax deductions or instalment payments. One-third of any balance must be paid by 30th June and the remainder on or before 31st December, 1943.

You must file an Income Tax return and pay any balance to establish your right, after the war, to the refund of the Savings Portion of your tax.

If you are a salary or a wage earner, your employer can probably supply you with Income Tax Forms—otherwise, they are available at your local Post Office or the office of your District Inspector of Income Tax.

Over 2,000,000 Canadians will be filing returns and paying taxes... avoid the last minute rush. If you wait, illness or other unforeseen circumstances may prevent you from getting your return on time. Avoid penalties by sending in your return NOW!

FARMERS

You must attach to your return on Form T. 1 Special or Form T. 1 General either a statement of your gross income and expenses, or completed Farmers T. 1 Supplemental. The T. 1 Supplemental itemizes all forms of farm receipts and expenses, and is a guide for determining your actual net income. Forms may be secured from your local Post Office or District Inspector of Income Tax.

To help you fill out your Income Tax forms a booklet ("Farmers' Income Tax Guide, 1942") has been prepared to cover the special conditions which apply to farm operations. It can be obtained free on request from your District Inspector. If you don't know his address, just mail your letter to "District Inspector of Dominion Income Tax."
